CRIMINAL
BEWARE
WARNING: To reduce the risk of possible serious injury or death, do not remove the full size spare tire from the factory-selected location. This location is necessary to achieve a vehicle-rated 75 mph rear impact crash-test performance. Removal increases the risk of fuel leak in high-speed rear impacts.
AVERTISSEMENT : Pour diminuer les risques de blessures graves ou mortelles, ne pas retirer la roue de secours pleine grandeur de l'endroit choisi par l'usine. Cet endroit est nécessaire pour obtenir le résultat de test d'impact arrière calculé sur la prise à 120 km/h. Si on l'enlève, cela augmente le risque d'écoulement de carburant lors d'un impact arrière à grande vitesse.
ADVERTENCIA: Para reducir el riesgo de posibles lesiones serias o la muerte, no saque la rueda de auxilio de tamaño normal del lugar seleccionado en la fábrica. Este lugar es necesario para lograr el rendimiento de prueba de impacto de vehículo de 75 mph en impactos traseros. Sacarla aumenta el riesgo de que salga una fuga de combustible en impactos de alta velocidad.

When you carry the Intelligent Key with you, you can lock or unlock all doors by pushing the door handle request switch (driver's or front passenger's) Ⓐ or rear hatch request switch Ⓑ within the range of operation.

When you lock or unlock the doors or the rear hatch, the hazard indicator will flash and the horn (or the outside chime) will sound as a confirmation. For additional information, refer to "Hazard warning flasher switch" in the "In case of emergency" section of this manual and "horn" in the "Instruments and controls" section of this manual.

Locking doors

1. Push the power switch into the OFF position and make sure you carry the Intelligent Key with you.
2. Close all the doors and the rear hatch.
3. Push the door handle request switch (driver's or front passenger's) Ⓐ or the rear hatch request switch Ⓑ while carrying the Intelligent Key with you.*1
4. All the doors and the rear hatch will lock.
5. The hazard indicator flashes twice and the outside chime sounds twice.

*1: Doors will not lock if the door handle request switch Ⓐ or the rear hatch request switch Ⓑ is touched while the Intelligent Key is left in the vehicle. However, if the Intelligent Key is inside the trunk, doors can be locked with the Intelligent Key.

After locking doors with the door handle request switch Ⓐ or rear hatch request switch Ⓑ, doors have been unlocked by operating the door handle request switch again within one minute.
When locking doors with the door handle request switch Ⓐ or rear hatch request switch Ⓑ, the Intelligent Key must be outside the vehicle before operating the door handle request switch Ⓐ or rear hatch request switch Ⓑ to prevent the Intelligent Key from being left in the vehicle.
The request function will only work when the Intelligent Key has been detected by the vehicle system.

Locking doors

...the door handle request switch Ⓐ or the rear hatch request switch Ⓑ once ...ll doors will be locked ...ally after another one minute.

...hazard indicator flashes once and ...outside chime sounds once. The ...responding door or the rear hatch ...unlock.

...the door handle request or the rear ...h request switch again within one ...nute.

...hazard indicator flashes once and ...outside chime sounds once again. ...ne doors and the rear hatch will ...lock.

...ors will be locked automatically un... ...of the following operations is per... ...within one minute after pushing ...quest switch while the doors are ...

...any door:
...g the power switch.

During this one minute time p... button on the Intelli... pressed, all doors will be locked ...

NOTE:
If "Selective Unlock" is turned ... the "Vehicle Settings," all doo... unlock upon first request swi... press.

Opening rear hatch

1. Carry the Intelligent Key.
2. Push the rear hatch opener switch.
3. The rear hatch will unlock and open...

12-VOLT BATTERY SAVER SYSTE...

When all the following conditions are m... for a period of time, the battery saver sys... tem will cut off the power supply to prevent 12-volt battery discharge.

- The power switch is in the ACC or ON position.
- All doors are closed and
- The vehicle is in the P (Park) position.

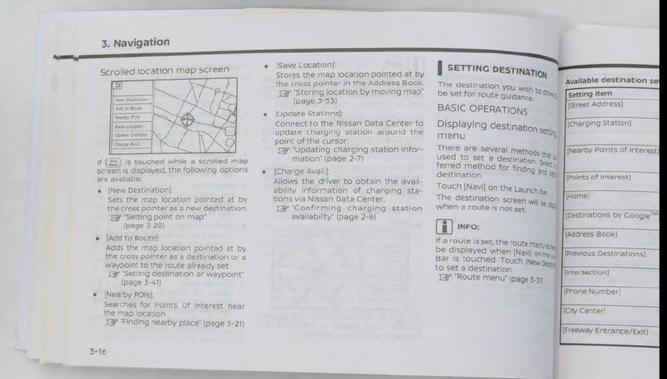

TROUBLESHOOTING GUIDE

Verify the location of all Intelligent Keys that are programmed for the vehicle. If another Intelligent Key is in range or inside the vehicle, the vehicle system may respond differently than expected.

when you carry the Intelligent Key with you, you can lock or unlock all doors by pushing the door handle request switch (driver's or front passenger's) A or rear hatch request switch B within the range of operation.

When you lock or unlock the doors or the rear hatch, the hazard indicator will flash and the horn (or the outside chime) will sound as a confirmation. For additional information refer to "Hazard warning flasher switch" in the "In case of emergency" section of this manual and "Horn" in the "Instruments and controls" section of this manual.

Locking doors

1. Push the power switch into the OFF position and make sure you carry the Intelligent Key with you.
2. Close all the doors and the rear hatch.
3. Push the door handle request switch A (driver's or front passenger's) or the rear hatch request switch B while carrying the Intelligent Key with you.*1
4. All the doors and the rear hatch will lock.
5. The hazard indicator flashes twice and the outside chime sounds twice.

*1: Doors will not lock if the door handle request switch or rear hatch request switch is touched while the Intelligent Key is left inside the vehicle. Holding the door handle request switch for more than one second sounds to alert you that the Intelligent Key is inside the vehicle. Doors can be locked with another Intelligent Key.

- **After locking the doors using the door handle request switch, make sure that the doors have been locked after operating the switch.**
- **When locking the doors using the door handle request switch, make sure that the Intelligent Key is not left inside the vehicle before operating the switch. This is to prevent the Intelligent Key from being left inside the vehicle.**
- **The request switch will be locked only when the Intelligent Key has been detected by the Intelligent Key system.**

Locking doors

...sh the door handle request switch A or the rear hatch request switch B once while carrying the Intelligent Key with you.

...e hazard indicator flashes once and ...e outside chime sounds once. The ...responding door or the rear hatch ...ll unlock.

...sh the door handle request or the rear ...tch request switch again within one ...minute.

...e hazard indicator flashes once and ...e outside chime sounds once again. ...the doors and the rear hatch will ...lock.

...ors will be locked automatically unless one of the following operations is performed within one minute after pushing ...request switch while the doors are ...d:

...ning any door.

...ning the power switch.

During this one minute time p...
...button on the Intelligent Key is pressed, all doors will be locked/unlocked again automatically after another one minute.

NOTE:
If 'Selective Unlock' is turned on in the "Vehicle Settings," all doors will unlock upon first request switch press.

Opening rear hatch

1. Carry the Intelligent Key.
2. Push the rear hatch opener switch.
3. The rear hatch will unlock and open...

12-VOLT BATTERY SAVER SYSTEM

When all the following conditions are met, for a period of time, the battery saver system will cut off the power supply to prevent 12-volt battery discharge:

- The power switch is in the ACC or ON position.
- All doors are closed, and
- The vehicle is in the P (Park) position.

TROUBLESHOOTING GUIDE

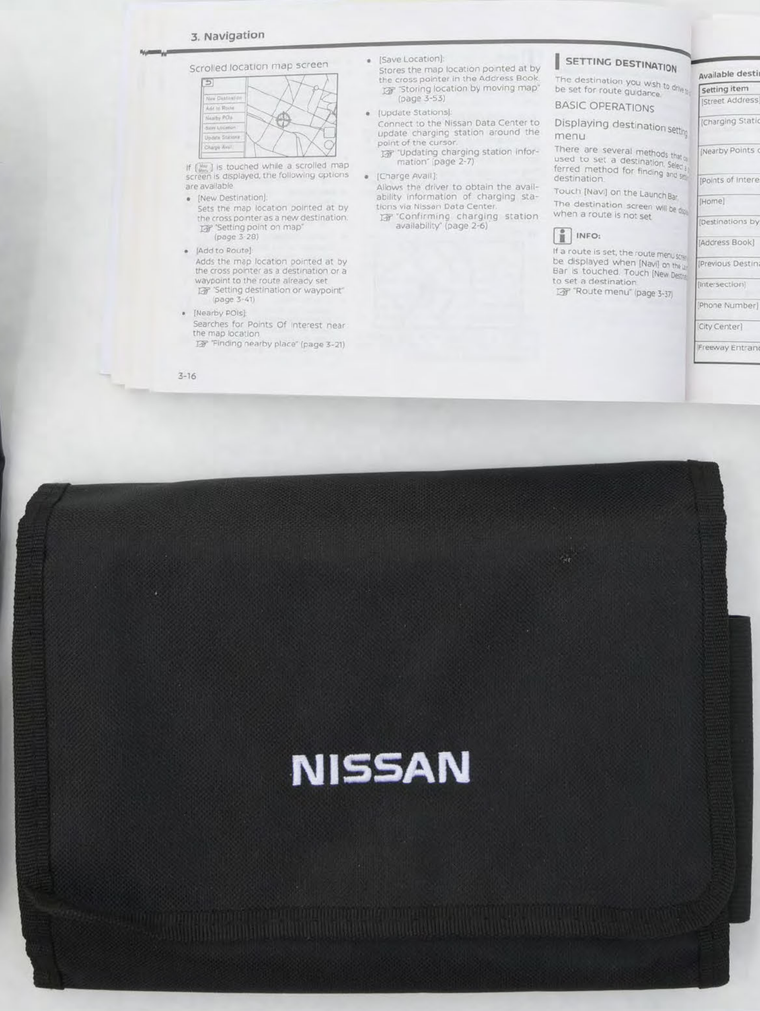

Verify the location of all Intelligent Keys that are programmed for the vehicle. If another Intelligent Key is in range or inside the vehicle, the vehicle system may respond differently than expected.

WHERE ARE MY DOCUMENTS?

Your passport application has been approved & your passport has been issued.
(Please check to see that the personal information on your book or card is complete and correct.)

If you applied for a...

- Passport Book & Passport Card, you may receive three separate mailings, one with your returned citizenship evidence, one with your newly issued passport book, and one with your newly issued passport card. The U.S. passport card is not valid for international air travel.
- Passport Book Only, you may receive your newly issued book and your returned citizenship evidence in two separate mailings.
- Passport Card Only, you will receive your newly issued passport card and your returned citizenship evidence in two separate mailings. The U.S. passport card is not valid for international air travel.

If your new passport book is limited in validity, you will receive information with your returned citizenship evidence that explains the limitation and provides instructions for obtaining a fully-valid passport.

If you have any questions or for more information, please visit our website at *travel.state.gov*, connect with TravelGov on social media, or call the National Passport Information Center, toll-free, at: 1-877-487-2778 (TTY/TDD: 1-888-874-7793).

Visit us at *travel.state.gov*.
